1. Time and Place of Meeting: 1430, 12 September 1955, Room 2406, I Building

2. Attendance: [redacted] 25X1

3. Purpose: To discuss the [redacted] proposal for a pocket sized IR commo system. 25X1

4. Discussion:

[redacted] stated that he had not written us a memorandum concerning the IR commo system because [redacted] had not finished his study of present contracted equipment. [redacted] passed out his report and [redacted] stated that the memorandum would be forthcoming as soon as his superiors O.K.'d the plan. [redacted] stated that Commo had no objection to APD working on the small unit but pointed out that it was Commo gear and that Commo would insist on having the final word in all decisions concerning its technical design, etc. [redacted] pointed out that this would present a situation that would be unworkable and suggested that APD send monitor reports to Commo. 25X1 25X1 25X1 25X1 25X1 25X1

5. Conclusions: It appears that a new understanding should be reached with Commo permitting APD to continue work on this project.
